Product Description

Venture XC™ FS3200 Ride-On Zero Turn Spreader/Sprayer

DRY COVERAGE OVER ONE ACRE AND MAXIMUM LIQUID COVERAGE OF 2.2 ACRES

Big jobs require more capacity. The Venture™ FS3200 zero-turn ride-on spreader/sprayer has a 200-pound granular hopper and dual liquid spray tanks which means less time refilling. Like the Venture, it has a variable spray system for a variety of applications and a steel frame to resist corrosive chemicals for added life.
